The Alternative Solvent Inkjet Inks from Sun Chemical

Colour matched and mixable with Roland Eco Sol Max 2 inks

Streamline ESL 2 is an eco-solvent inkjet ink series formulated to match the colour, performance and quality of Roland's Eco-Sol Max 2 version inks, used with Roland's Pro 4 series machines. ESL2 is fully intermixable with Eco-Sol Max 2 inks, enabling the printer to utilize the existing original colour profiles. Simply insert our pre-filled 440ml cartridge and continue to enjoy uncompromised quality with greater economy!

ESL 2 features a full colour range and is available in pre-filled 440ml cartridges or our popular 1 litre refill bottles for our Streamline EcoPro Ink Supply Units.

Streamline ESL 2 Key features:

- HPQ LO low odour ink chemistry
- Complete 7 colour ink set (CMYK, Lc, Lm, Lk)
- Nickel free Yellow ink
- Improved print resolution
- Improved chemical resistance, ideal for car wrap applications

EcoPro Ink Supply Unit

Our Streamline EcoPro ISU provides for even greater economy than our prefilled 440ml cartridges. ESL 2 is available in one litre refill bottles that allow your machine operator to top up the ink reservoir as required.

EcoPro ISU Key features:

- Economic 1 litre refill bottles
- Reduced inventory compared to cartridges
- Reduced waste
- Visual evidence of ink level for overnight or unattended printing
- Installation by Sun Chemical Engineer

Using non-original inks?

If you're not getting the best quality or reliability from your current non-original inks, converting to Streamline inks will restore your machine to the original colour values and performance. A Sun Chemical approved engineer will make the change for you.
