Varn® Gum Arabic Solution

Natural plate protection

Specialist protection for all plate types

Product Features

- 100% pure Varn® Gum Arabic Solution is manufactured from the highest quality selected amber sorts and is micro-filtered to remove even the finest impurities.
- 100% pure Varn® Gum Arabic Solution is guaranteed for non-souring for a period of six months and is stabilised to retain its uniform viscosity. This pure gum arabic solution is manufactured and quality controlled under the highest standards.
- 100% pure Varn® Gum Arabic Solution flows to a smooth, thin, uniform film and offers maximum protection on the plates and maximum performance in the fount. It is formulated for use on all types of plates and may be diluted with warm water to obtain the proper consistency for a plant's individual requirements.

Advantages of Varn® Gum Arabic Solution

- 100% pure product.
- Uniform viscosity.
- Versatile - use for all plates.
- Easily applied and provides effective protection.
- Micro-filtered to remove all impurities.

The aim of our technical documents is to inform our customers about general values. However, the transferability of general values known from experience and laboratory results to concrete practical applications depends on a number of factors which are beyond our control. We therefore ask for your understanding that this advice document cannot be used as the basis for claims in law. Furthermore, the correct application for each product has to be checked carefully for suitability.
