Varn® Silicone Spray

Long lasting protective silicone layer

Specialist protection for multiple applications

Product Features

- Varn® Silicone Spray forms a slippery, long lasting silicone layer that repels water, ink, grease, rust and glue, providing a corrosion resistant film.
- Varn® Silicone Spray can be sprayed on impression, blanket and plate cylinders, on press and folder feedboards, belts and feed and delivery wheels.
- Varn® Silicone Spray can also be used on cutting tables and blades, saws, shelving, conveyors etc. to provide slip and eliminates marking problems.

Advantages of Varn® Silicone Spray

- Prevents sticking.
- Prevents rusting.
- Reduces stock waste.
- Eliminates marking.

The aim of our technical documents is to inform our customers about general values. However, the transferability of general values known from experience and laboratory results to concrete practical applications depends on a number of factors which are beyond our control. We therefore ask for your understanding that this advice document cannot be used as the basis for claims in law. Furthermore, the correct application for each product has to be checked carefully for suitability.
